Make-up

Make-up. It's essential to how your products look, feel, and taste. And how they sell. Consistent quality and efficient processes – at every production stage – are vital. Ally with an equipment supplier who provides both: Moline Machinery. Moline is your full-line partner, whether you produce bread sticks or danish, croissants or energy bars, pizza or

pitaa. Our world-famous rotary cutters lead a long list of make-up accessories. Automatic panners. Moulders. Dough oilers, moisteners, and plows. Continuous or spot filling depositors and cinnamon dispensers, with optional spreaders. Flour dusters, flour removal, trim removal. All are built with Moline's hallmark precision and rugged construction to withstand the rigors of high-speed

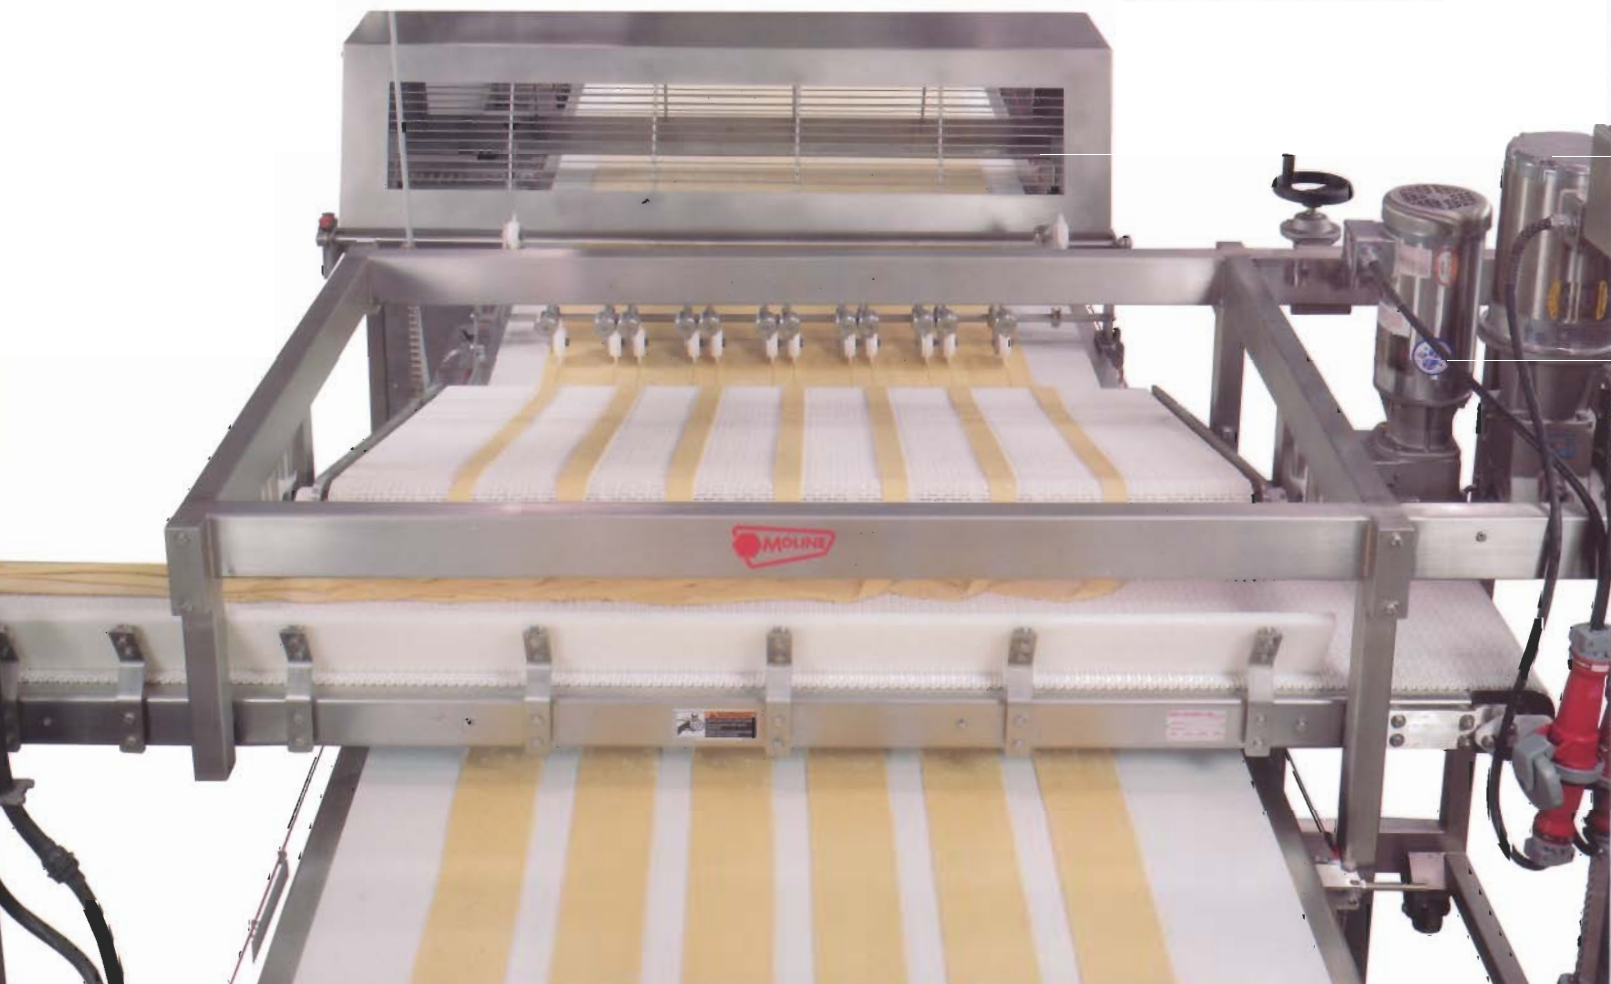

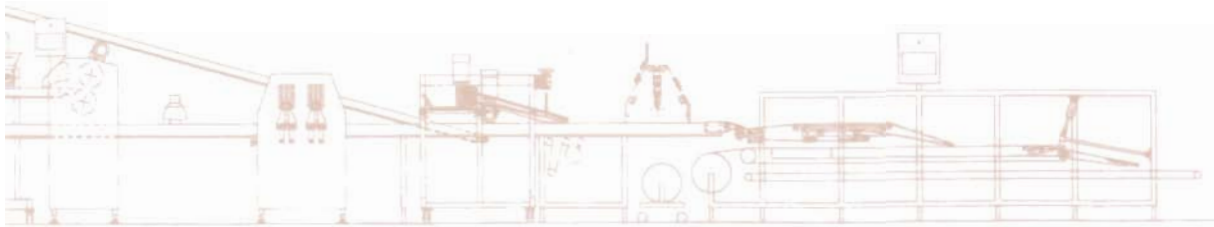

production and washdown. Mobile C-frame and exclusive flex-mount designs allow quick changeover for maximum versatility. Wide production lines? No problem. New product line? We meet unique challenges with on-target solutions. From mixer to freezer, we provide answers. Make your make-up better. Contact Moline today.

- STAINLESS STEEL CONSTRUCTION • WASHDOWN DUTY DESIGNS • QUICK REMOVAL FOR CHANGEOVER AND CLEANING • SAFETY-CONSCIOUS DESIGN

Over a half century has passed since Moline's pioneering design of the hexagonal scrapless rotary cutter, and our innovations in make-up equipment continue today. As the demands of the baking industry have changed, Moline has kept pace with the most advanced engineering and manufacturing techniques. What has remained the same: our unwavering commitment to world-class quality in craftsmanship, materials, and service. Our customers rely on Moline's inventive solutions to their production challenges. For complete baking system needs – proofers, fryers, sheeters, make-up, and finishing equipment – *profit from our experience.*
