Industrial Donut Systems

Featuring the LIBRA Dual Fuel Fryer

Moline has supplied donut systems, industrial sheeting/makeup lines, rotary cutters and much more to the international baking industry for 70 years. We're proud that our products have gained a reputation for innovation, quality and durability. We continue to develop new equipment to make your process more efficient, flexible and, ultimately, more cost effective. When you own Moline equipment, you also have full access to our certified bakers, our engineering team and our commitment to customer service. We measure our success by yours.

This is a special edition of the Moline Advantage, a newsletter focusing on our industrial donut systems for the IBA show. If you would like a free subscription to the Advantage newsletter, please drop off your business card at our booth or visit our website at www.moline.com and send us an email.

Thank you for visiting our booth and enjoy the show!
